- **MY BOOKS REVIEWED**

International Cooperation to Suppress Terrorism

Conflict Bulletin (Autumn 1985)

"Its chief merits are its thoroughness and its scholarship. To this must be added its objectivity.(...) The book's analysis of why this is so [Council of Europe states attaching weakening reservations to their ratifications of the European Convention on the Suppression of Terrorism (1977)] deserves careful study, as it is all too clear that this is a problem to which we shall be compelled (by the terrorists) to return".

Armed Forces (February 1986)

"This book (...) must be essential reading for the student of terrorism who wishes to know more of the Western democracies' search for an adequate response. (...) It provides a thorough grounding in a subject that should receive more attention than it does. (...) This book has much to offer..."

The "Jewish Underground": Our Terrorism

Haaretz (August 1990)

"The main thesis of the present study stipulates that there is continuity ranging from the nationalist-messianic wing of the LEHI since the pre-state period, through the Tzrifin Underground and the Alliance of the Zealots after the establishment of the state, to the contemporary Jewish Underground. This line of argumentation finds support in the prevalent ideologies and perceptions of those still alive and active, who have not yet come to terms with the perceptions of civil society and state sovereignty. (...) All the arguments that Gal-Or raises in her important book are directed at highlighting what she sees as the chief lesson to be drawn from this historic analysis..."

Maariv (August 1990)

"Two main contributions of this work are: First, introducing order into the multitude of information relevant to the *Block of Faithful* [Gush Emunim], i.e. distinguishing between the political, ideological and socio-psychological aspects of the phenomenon. And second, shedding light on the ideological relations, social linkages, and even the family bonds between the Underground members active in Judea and Samaria during the first half of the 1980s and the IZL and LEHI and other terror organizations."

Tolerating Terrorism in the West: An International Survey

Social and Behavioural Sciences, American Library Association (May 1992)

"...it should be pointed out that (...) *Tolerating Terrorism* is organized around a central theme (the domestic effects of, or responses to, terrorism). (...) All this makes *Tolerating Terrorism* the most interesting of the three collections..."
